NOMINATED CONSUL AT MOSCOW.

The President has nominated Robert P. Wilson, of Pennsylvania, as Consul at Moscow.

HEALTH MEASURES.

The select committee appointed to investigate and report the best means of preventing the introduction and spread of epidemic diseases, to-day adopted a bill for the National Board of Health, giving it powers, and appropriates \$500,000 to carry out its provisions.

POSTMASTER GENERAL KEY ON DISCRIMINATIONS IN MAIL.

Postmaster General Key, in answer to a resolution of the Senate inquiring why papers published here were discriminated against in the mails as advertising sheets, says that while the Senate has the right to call for any information required to facilitate legislation, it has no right to direct him to give his reasons for complying with a law which it is his duty to execute. He says he has no objection to saying, however, that the enforcement of the law in question involves on local postmasters, and that the rights of papers have been referred to the Attorney General for decision.

THE CABINET DISCUSSES INDIAN AFFAIRS.

The Indian question came up for consideration at the Cabinet meeting to-day. The discussion took a wide range, covering the relations of the Canadian government to our own in the event of a hostile movement southward by Sitting Bull and his band; the habeas corpus case of Standing Bear, now in custody of Gen. Crook, and incident thereto, the policy of keeping Northern Indians in Southern latitudes against their wish if they were disposed to be peaceful at the North. Secretary Schurz took the ground that to promote the best interests of both the whites and Indians it was necessary that the Indians should be kept upon their reservations and out of the way of bad white men, who would incite or provoke them to acts of violence. No definite conclusion in relation to any branch of the subject was reached.

Judge Key on the Kansas Movement.

WASHINGTON, April 10.—Postmaster General Key thinks the Kansas movement of blacks from Mississippi and Louisiana is not a bad thing. He feels quite sure that good will come from it to both races. The tendency will be to reduce the numerical strength of the blacks in those States until they no longer outnumber the whites, which is desirable. Besides, if the blacks do well in Kansas, it will make the race more independent in the Cotton States, for they can at all times threaten to leave, if not well or at least fairly treated. Judge Key thinks it is disastrous for the blacks to outnumber the whites in any State, for reasons which are obvious to any one acquainted with human nature, or certainly with human nature as developed in the South. Let a fifth of the blacks remove from each of the Cotton States, and those remaining would undoubtedly get better wages and fairer treatment. There is too much cotton raised, which makes the price so low that planters find it impossible to pay the blacks what we would ordinarily consider fair living wages. If there was one-third less cotton raised the planters would get about as many dollars for their crop as now, for the price would advance.

Judge Key estimates that the colored population in now about ten per cent of the white, taking the country over. If this population was more evenly distributed in all the States he thinks both races and the country would be benefited; say fifty per cent in the Cotton States, twenty per cent in the border States, and the rest in the Northern and Western States. We would then have less negro question than now,—at least it would not be sectional.

Judge Key says he shall watch the workings of the problem in Kansas with great interest, and hopes a little moving about of that sort will be of advantage to both races.

PARKERSBURG.

NOTICE FROM A VIGILANCE COMMITTEE—OF INTEREST TO ALL DEALERS.

PARKERSBURG, April 10.—A Vigilance Committee in the upper end of this county has given notice to a number of suspected parties and hard characters to leave in a very short time. Several of them have already gone, and the people think if the rest don't leave soon there will be a lively time in that neighborhood, as it has been infested with petty thieves and marauders for several years, and they have grown tired of it and propose to introduce a new order of things.

A suit is now pending in the Circuit Court of this county of considerable interest to all men. It involves the power of the West Virginia Transportation Company to sue for the loss of oil by accident. In this case a tank of oil was destroyed by lightning, and the company are seeking to recover the amount of loss from Colonel Villan, under what they claim as a contract existing at that time in regard to the storage of the oil.

JOHN KILPATRICK.

He is Wanted to Fill the Vacuum Created by the Negro Exodus.

SAX FARMER, April 11.—The following article is furnished for publication: "The Chinese Six Companies are daily in receipt of applications for laborers to go to the Southern States, notably Mississippi and Louisiana to take the place of negro laborers now emigrating. The officers of these companies will be very anxious to understand that they have no control over their people's labor, and have never brought or caused to be brought on their countrymen here; never contracted in any manner with any company, and have no interest in the matter." [Signed] CHINESE SIX COMPANIES.

FORTY-SIXTH CONGRESS.

Senator Herford's Short Speech on Mr. Herford's Resolution. The Senate adjourned just as it reached the interesting part of the Army Bill. The House adjourned the Legislative Bill—Measures for Eradicating Infectious Diseases—The Agricultural Consistencies Reconsidered.

WASHINGTON, April 11. SENATE.

Mr. Garfield, from the Committee on Epidemic Diseases, reported a joint resolution setting forth the duties existing as to the legal organization of the National Board of Health, and to remove them a resolution ratifying the organization and action of that body was agreed to.

Mr. Herford called up Mr. Hoar's resolution, declaring that the Democratic programme for the passage of the Appropriation bill to be unconstitutional and revolutionary, and made a speech against it, insisting that no such action was contemplated as would justify such a conclusion.

Concluding his speech Mr. Herford said: Repeat the obnoxious laws and all will be well. Give the people free elections and fair justice, and peace and prosperity will prevail throughout our borders. Repeat these acts, and by so doing reassert the doctrine that men are capable of self-government without the intervention of the army.

The army appropriation bill was then taken up, and Mr. Withers explained its provisions.

No amendments were adopted, the Committee on Appropriations having agreed to resist all amendments, and the majority of the Senate seconding them accordingly. The reason assigned by Mr. Withers for such a course was that amendments would delay the passage of the bill.

The Clerk reached the sixth section, which prohibits the presence of troops at election places, etc., when the Senate adjourned till Monday. Yes 29, nays 23.

HOUSE.

The House met and went into a Committee of the Whole, when the consideration of the legislative appropriation bill was continued, with Mr. Blackburn in the chair.

The amendment increasing the clerical force of the Postoffice Department was adopted; yeas 105, nays 60.

Proposition to increase the salary of the Commissioner of Agriculture, after a short discussion, was withdrawn. Amendments were agreed to directing the Commissioner to supply a reasonable quantity of seeds, shrubs, etc., to members of Congress for distribution among their farming constituents; to report the quantity of seeds, etc., distributed, the States and counties to which sent, from whom purchased and the quantities. The appropriation for the purchase and distribution of seeds, etc., was increased from \$100,000 to \$100,000.

Mr. Hunt submitted an amendment increasing the appropriation for eradicating infectious diseases among domestic animals from \$25,000 to \$250,000. He stated that the object of the large increase was to stamp out the disease known as pleuro pneumonia, and the only way known to eradicate the disease was to buy and kill all diseased cattle and cattle which have been subject to contagion.

Mr. Sparks advocated the amendment. It was vastly important that the disease should be immediately eradicated. Without disposing of the amendment the committee rose.

The committees were announced, and the House adjourned till to-morrow.

NEW YORK.

OBSERVANCE OF GOOD FRIDAY.

New York, April 11.—The business at the stock, produce, cotton and other exchanges suspended to-day and many business establishments closed. The courts adjourned over Good Friday and little is doing in the Government Department. There were large congregations in the churches.

COURTNEY WILL NOT ROW ON CREEKS OR RIVERS.

Courtney says he has not issued a challenge for a boat race, and will not in the future row on rivers, nor pull on creeks.

WHEELS FOR SOUTH AFRICA.

The steamship Ontario, from Liverpool, has arrived. This vessel comes here under a charter of the British Government to embark mules for South Africa.

FREIGHT RATES ON TRUNK LINES.

At a final meeting of the managers of the trunk lines it was resolved that the President of the trunk lines would not participate in to-day in any lower tariff rates on east-bound business—that is, on basis of 20 cents for 100 pounds for grain, and 25 cents for flour, fourth class from Chicago to New York, unless on property in transit. An agreement to this effect was signed by Wm. H. Vanderbilt, New York Central; J. W. Garrett, Baltimore & Ohio; H. J. Jewett, Erie, and G. B. Roberts, of the Pennsylvania.

On west bound freight it was determined to divert freight to other roads from those which allowed rebates, and to hold trunk lines responsible for a strict maintenance of the tariff rates.

The President then confirmed the organization of a Joint Executive Committee, and the rules for its guidance adopted in Chicago in December were approved, with a few modifications.

It was also determined to affirm the principle of pools in both directions on all through freight and passenger traffic common to any of the trunk lines, and direct their representatives on the Joint Executive Committee to call the Joint Executive Committee together at an early date to perfect such pools and adopt such rules and regulations for the maintenance of rates and their enforcement as said Joint Executive Committee may deem just.

CHINA.

China Excluded in Regard to Our Anti-Chinese Emigration—The Dutch Consul's Claiming Coolies—General Grant's Movements.

HONG KONG, March 17.—The passage of the Anti-Chinese bill and subsequent vote attract great attention. The native vernacular newspapers of Hong Kong and Shanghai, especially the former, were extremely bitter against the proposed measure, and claim the protection guaranteed by the treaty, and draw pictures of the future relation and exclusion of Americans from Chinese soil, and exaggerate the consequences to America of the withdrawal of Chinese labor; but speak with moderation of the Chinese reactionaries, and their movement of China on her own ground.

There is great excitement over the discovery of the alleged practice by Dutch colonists in the Straits settlement of kidnapping coolies from Singapore, and holding them in bondage at Penang and neighborhood.

The newly opened Chinese ports of Pakhoi and others fail to meet the expectations of commercial speculators. Foreign trade is impeded or destroyed by the efforts of native reactionaries.

There has been an excited discussion at Shanghai over a brief telegram from Washington announcing the complete success of United States Minister Seward's mission.

Lord Lytton, Viceroy of India, telegraphed the Governor of Hong Kong that Gen. Grant will reach Hong Kong about the middle of April.

Ten Million Dollars of Inflation.

WASHINGTON, April 11.—The inflationists in the House got in an entering wedge yesterday, in the adoption of McMahon's amendment to the pension appropriation bill. The amendment provides that the ten million dollars now in the Treasury as a fund for the redemption of fractional currency, shall be applied to the payment of arrears of pensions, and is to be made immediately available for that purpose.

Mr. Garfield made a strong argument against it, claiming that it was but the beginning of a scheme to break down redemption, which McMahon denied.

An amendment to the amendment was adopted, requiring the Secretary of the Treasury to redeem outstanding fractional currency from any money in the Treasury, lower amount, as it is not so believed that \$500,000 in fractional currency remains in existence. The \$10,000,000 appropriated under McMahon's amendment will inflate the currency to that extent, but will take the place of fractional currency which has been redeemed and obliterated. There is no doubt that it will pass the Senate.

Advocates of the measure contend that it will help to pay pensioners without increasing the interest-bearing debt, and at the same time inflate the currency to that amount, and thus help business to that extent.

A NEBRASKA MURDER.

SOLDIERS CALLED TO PREVENT THE RESCUE OF THE MURDERER.

HARTINGS, NEB., April 11.—In the trial of Oliver, Fisher and others for the murder and burning of two men, Bion Brown, a young man, employed by Oliver as herder, turned States evidence and detailed the proceedings of the murders, but asserted that the burning was accidental. A rumor of an intended attempt to rescue Oliver, on the part of the cowboys, has brought a company of soldiers here from Omaha.

Settlement With a Defaulting Treasurer.

CINCINNATI, April 11.—A Wapakoneta, Ohio, dispatch says: A settlement has been agreed upon between the County Commissioners and the bondsmen of the late Treasurer, Lewis Myers. The penalty and interest are thrown off, and the amount of default will be made up in four semi-annual payments.

American Charity for Szegein Sufferers.

CINCINNATI, March 11.—The Finance Committee of the Deak Society, a Hungarian benevolent association in this city, this morning sent a draft of 8,000 florins, collected from the citizens of Chicago, to the Minister resident of Hungary for the relief of the Szegein sufferers.

A Family Tragedy.

CAIRO, ILL., April 11.—Mrs. Ed. Hathaway suicided at 6 o'clock this morning at Anna, Ill., with a revolver. She was supposed to be jealous. She was a sister of John McNamee, who murdered his wife and suicided last year.

Drowned.

MEMPHIS, April 11.—Thomas Wallis, formerly of Bracken county, Ky., was drowned yesterday, at the point just above the city, in a skiff with a companion, which capsized.

THE DEPRESSION OF TRADE IN JAPAN.

JAPAN.

TRADE DEPRESSION—THE REVISION OF THE TREATY.

YOKOHAMA, March 27.—The trade depression continues with no prospect of an early change as the market is still overstocked with foreign goods. Banks and merchants decline all transactions while the exchange rate remains so disadvantageous to them. Mexican dollars still hold a premium of 25 per cent over Government notes. The chartered Mercantile Bank, one of the three English banks long established in Japan, announces the close of the branch here. The Government is undecided about the plans of a treaty revision, and it is obvious that the fiasco of the United States Commission has disturbed the calculations, nevertheless arrangements continue vaguely for a general revision early this month. A conference of representatives of all the powers was proposed to take place at some European Capital, but now the scheme is changed and the Commission is appointed to institute negotiations here.

RUSSIA.

THE WORK OF THE REVOLUTIONARY COMMITTEE.

ST. PETERSBURG, April 11.—Professor Afanasev stated that the autopsy of the bodies of four soldiers led to discovery of the existence of the plague.

It was also stated that a student was found recently near Kasan, Cathedral, labelled "Sentenced as traitor by the Socialists Revolutionary Committee."

THE ROMANIAN OCCUPATION AGAIN.

ST. PETERSBURG, April 11.—The Agency Russa announces that negotiations are now proceeding between the great powers on the proposal of the Porte forwarded to St. Petersburg by England, that instead of the mixed occupation the powers should agree to the nomination of Okto Pasha, who is popular with all classes, as Governor of Eastern Roumelia, the Porte to agree to the prolongation of the authority of the International Commission for one year, and to abstain during that period from occupying points. It has a right to guarantee.

Russia has decided to surrender Kuldja to China and conclude a new convention with the Chinese Government.

GERMANY.

BISMARCK WILL INSIST ON SURTAXES.

ANTWERP, April 11.—The Pressurist says Bismarck insists on establishing surtaxes upon colonial products coming from Europe, and claims the protection guaranteed by the treaty, and draw pictures of the future relation and exclusion of Americans from Chinese soil, and exaggerate the consequences to America of the withdrawal of Chinese labor; but speak with moderation of the Chinese reactionaries, and their movement of China on her own ground.

There is great excitement over the discovery of the alleged practice by Dutch colonists in the Straits settlement of kidnapping coolies from Singapore, and holding them in bondage at Penang and neighborhood.
